Ready to use

Untreated

Product description

Quick facts

	– a mid-priced wood species in our range.
	Untreated – the product leaves the factory unfinished. You can apply a finish or leave it natural.

The pieces may have micro-cracks and knot holes.

We sell second-grade products in full forklift bundles; please confirm available bundle sizes before purchase. When estimating the required quantity, allow for higher waste than with standard-grade products.

Clearance items include Grade I (first-quality) products that are sold in batches.

These products are non-returnable and non-exchangeable.

Typical defects that classify a piece as second-grade:

- Excessive knots
- Knot holes
- Shape irregularities
- Color inconsistencies
- Cracks
- Partially unplaned surfaces
- Incomplete edges

Defects may occur anywhere on the piece.

✅ Finnish wood, responsibly manufactured

✅ Beautiful grain pattern, rich brown surface

✅ Excellent choice for sauna or terrace

✅ Very low moisture movement

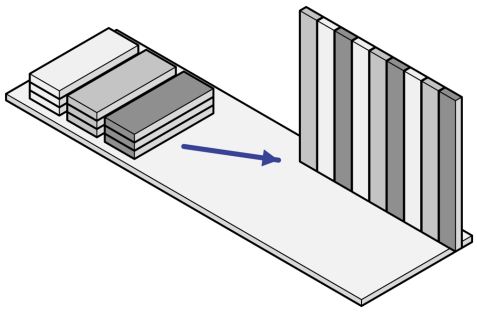

✅ PEFC-certified

Our product uses thermally treated pine, which has a beautiful brown, hardwood-like surface. Thermal pine adds natural beauty and durability to interiors and outdoor spaces. Its excellent heat insulation, moisture resistance, and ease of maintenance make it a natural choice for sauna benches, interior paneling, terraces, and garden construction. Carefully selected raw materials from Finland's best-growing areas and an eco-friendly treatment process using high temperature and steam ensure that our thermal pine products are responsibly produced, safe, environmentally friendly, and PEFC-certified.

Shade varies

The shade of thermally modified wood varies between pieces and between thermal modification batches. This comes from the wood's own properties, such as density and moisture content, and from differences between batches. Products in the same order may come from different batches, so shade differences also occur within a single delivery. This variation is part of the material's character, and shade differences between pieces or batches are not grounds for a complaint.

- **Sort the pieces before installation** and spread the different shades evenly across the surface. This gives a lively, even look without separate dark or light areas.
- **Order everything you need for the project at once.** We can't guarantee a single batch, but a later top-up order makes shade differences more likely.
- **The shade evens out and lightens over time when exposed to light.**

Colors in the images are indicative, and your screen settings affect how they look. Wood is a natural material, so its shade and grain always vary. Lighting and the colors of surrounding surfaces and furniture also affect how the wood looks in the finished space.

Product information

Product information

Tuotenimi	LÄMPÖMÄNTYPANEELI 15x118 STS4 II-LAATU
Tuotenumero	#5106
Alkuperämaa	Suomi
Saatavuus	Tuote poistuu valikoimasta

Product measurements

Vahvuus (mm)	15
Leveys (mm)	118
Paino (kg/myyntiyksikkö)	0,680
Neliömenekki (m/m²)	9,09
Hyötyleveys (mm)	110
Pakkauskoko (kpl/pkt)	4

Product features

Puulaji	Mänty lämpökäsitelty
Pintakäsittely	Ei käsitelty
Päätyponttaus	Ei
Piilokiinnityspontti	Ei
Palokäyttäytyminen	D-s2, d0

Sustainability

Hiilijalanjälki (CO2e kg/jm)	0,83
Hiilikädenjälki (CO2e kg/jm)	-1,17
CE-merkintä	Ei

Minimum order size

Please note that we deliver our products in bundles. Bundle size is indicated together with stock information on top right corner.

Sample pieces

Lauta.fi delivers product sample pieces to both consumer customers and professionals, such as architects, interior architects and designers, construction industry and procurement professionals.

If you are interested in ordering one or more sample pieces, please contact our sales department via email lauta@lauta.fi or phone +358 3 3123 6000 (On weekdays 8-16).
