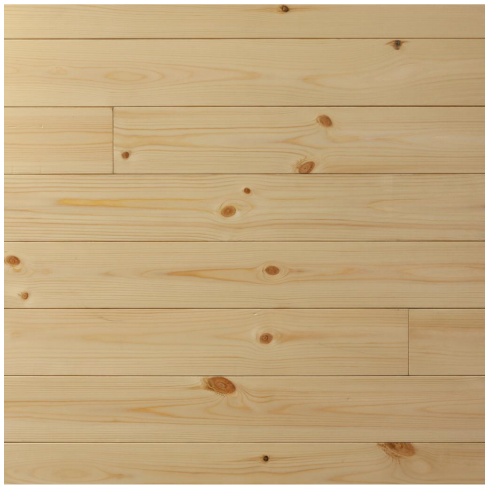
FLOORBOARD

FINNISH PINE 28 x 95 HLL 8-12% PP

4603

lauta.fi/4603



Introduction

- ✅ Made from Finnish wood, responsibly produced
- ✅ Stylish and affordable
- ✅ Beautiful grain pattern
- ✅ Easy to work with and finish
- ✅ PEFC-certified

Product description

A wooden floor is a traditional and warm interior element. End tongue-and-groove joints reduce waste. The product is suitable for heated indoor spaces. Pine floorboards are light in color when installed but darken over time. In addition to the natural color, the floor can be treated to achieve almost any desired shade.

✅ Finnish wood, responsibly manufactured in Lempäälä
✅ Completely natural and safe product
✅ Beautiful grain pattern
✅ Natural and warm appearance
✅ PEFC-certified

Our product uses pine, a domestic softwood with an elegant grain that creates a natural and warm atmosphere indoors. Easy to work with and finish, pine is ideal for interior applications such as paneling, flooring, trim, and finishing. Its beautiful grain and natural color make it an aesthetically appealing choice for visible surfaces. Our PEFC-certified pine products are responsibly produced and environmentally friendly.

Product information

Product information

Tuotenimi	LATTIALAUTA MÄNTY 28 x 95 HLL 8-12% PP
Tuotenumero	4603
Alkuperämaa	Suomi
Saatavuus	Varastotuote
CN-koodi	Pine - Calibrated - CN 4407 1120

Product measurements

Vahvuus (mm)	28
Leveys (mm)	95
Paino (kg/myyntiyksikkö)	1,096
Neliömenekki (m/m²)	11,49
Hyötyleveys (mm)	87
Pakkauskoko (kpl/pkt)	4

Product features

Puulaji	Mänty
Pintakäsittely	Ei käsitelty
Palokäyttäytyminen	D-s2, d0

Sustainability

Hiilijalanjälki (CO2e kg/jm)	0,11
Hiilikädenjälki (CO2e kg/jm)	-2,02
CE-merkintä	Ei

Please note that we deliver our products in bundles. Bundle size is indicated together with stock information on top right corner.

Surface treatment

Highlighting Wood's Best Qualities with Surface Treatment

Surface treatment brings out the best in wood and tailors high-quality timber to its intended use. Beyond durability and fire safety, it adds color that perfectly complements your project.

Durability and versatility can be further enhanced with industrial painting or finishing suited to your needs. Pre-finished or treated wood also speeds up and simplifies work during tight construction or renovation schedules.

Wood is a high-quality, versatile material that, after industrial painting or surface treatment, performs even better in various conditions. Our extensive practical experience and expertise in wood finishing guide us on how to treat material for different applications.

Not all wood requires finishing before use, but treatments can highlight specific properties. For example, sauna wood benefits from protective coatings designed to withstand high temperatures and humidity. Surface treatment can also extend a wood product's lifespan.

The choice of treatment often depends on the wood's application. Properly treated wood adds structure a nd character to interior and exterior surfaces. Opaque painting or translucent finishes allow you to a chieve the exact color that best fits your interior design and overall building aesthetic.

All painting and finishing work is done in our industrial paint shop. We use water-based, eco-friendly coatings and paints from reputable manufacturers. Our fire-retardant treatments can bring wood to a B-s1, d0 fire class.

To operate as environmentally responsibly as possible, a batch must be at least 500 meters. This minimizes raw material waste and keeps our operations efficient.

Design

Wood flooring is a durable and attractive material that suits a wide range of interiors. With floorboards, you can create a stylish wooden floor that is easy to maintain and restore to like-new condition over time. We offer floorboards in various sizes and styles. The characteristics of floorboards vary between products, so choosing the right one for your space is important to achieve the desired result. The product information provides detailed descriptions of each board's intended use.

Applications

The timeless and popular floor plank is suitable for both new construction and renovation projects, as well as modern and traditional cottages. Its extremely long lifespan and easy upkeep make it a sought-after material. Changing the surface colour is simple during sanding and refinishing. Choosing the right product is important due to the natural movement of wood.

Floorboards for Warm Indoor Spaces

Floorboards with a moisture content of 8–12% are intended for warm indoor areas. You can also find these products under the Tuuli Sauna and Tuuli Indoor product ranges.

Floorboards for Outdoor and Unheated Spaces

Floorboards with a higher moisture content (18%) are suitable for spaces that are not kept warm year-round. You can also find these products in the Arctic Indoor product range.
